A communication was received from Mayor Henry A Maurice, who set forth that he had no clerk, and could not tell to whom a letter from the Council had been delivered, containing a copy of the resolution adopted providing that a monthly statement shall be submitted by the court as to the cost of feeding prisoners during that period. The Mayor set forth that all moneys collected for means furnished to prisoners were paid over to the parties who supplied the meals. Such expenses were only charged up to the city whon the prisoners were unable to pay them. He had never been notified of the passage of the resolution referred to and had therefore, not been able to comply with the request.

Mr. Sims stated that he was the author of the resolution referred to, and he had been the cause for the patting of three cells in the station-house. The resolution was intended to provide that if any meals are furnished the cost for the same should be added to the fine imposed. The only suggrestion in his receivetion which the Mayor had ever made had been to have his sainty increased, and the Council had acted accordingly.
